

Date: \_\_\_\_\_

Dear Parent/Guardian:

Your child participates in a classroom with children who may have compromised immune systems. Because of the close contact of the students, germs and/or viruses are more easily spread. School Board Policy #5071, Communicable Disease Guidelines for Exclusion of Children from School, is available on the school district website, [www.besd.net](http://www.besd.net) under school board policies. Please consider these guidelines when your child shows signs and/or symptoms of an illness.

If you need a hard copy of Policy #5071 or have any other questions, please contact the School District Nurses at 435-734-4800 or 435-720-2364.

Sincerely,

Bonnie Young, RN  
School Nurse
